**PLEASE NOTE:** When enrolling in a thesis subject or research methodology studies, you must do so on a **semester** basis only (eg if you are only enrolling in thesis in 2009, you should enter the relevant thesis code for Semester 1 and then again for Semester 2). Your Student Portal re-enrolment system will **not** permit you to vary the points of the thesis subject if you are in a research classified course (ie Streams 100, 100A, 150 and the DEd (Research Stream) - it will automatically come up as 25 points (part-time). Therefore, staff in the Education Student Centre will check all course plans submitted on the system and ensure that any student who was full-time in 2008 has their 2009 course plan altered to reflect this. Please email Clare Ivanovski at [clarepc@unimelb.edu.au](mailto:clarepc@unimelb.edu.au) to advise if you are changing your part or full-time status in 2009 compared to your enrolment in 2008.

Students in coursework classified courses (ie Streams 150A, DEd(Coursework Stream), DEdPsych) simply choose the subject code corresponding to the points they wish to enrol in.

Research Methodology Studies is always 25 points per semester and this point value will come up when you enter any of the RM subject codes on the Portal.
